---

## Summary

Full Stack Web Developer eager to hone his skills and learn new skills and technologies. Experienced with working in a team environment and communicating ideas with others. Focused, driven, and enjoys overcoming new challenges.

---

## Technical Skills

**Front End:** HTML, CSS, Javascript, React.js, Bootstrap, Material UI, jQuery, Bulma, Handlebars.js
**Back End:** Node.js, Express.js
**Database:** MySQL, Sequelize, MongoDB, Mongoose, GraphQL

---

## Projects

### Freelancer

A job service application that would allow users to offer their skills and pay for others'.
● Led a team of developers to develop features following a deadline. Connected the Front End and Back End together, implemented responsive design to the application, and assisted the other developers with their tasks. Implemented React-Bootstrap and JSON Web Tokens for the first time.

### RPG Character Database

An application that allows users to create, comment on, and delete role-playing game characters.
● Created the Front End and implemented Handlebars.js for the first time, keeping responsive design standards in mind. Coordinated with the Back End developers to communicate which features should be prioritized to be able to develop Front End components.

### PokeFinder

An application that allows users to search for a pokemon and displays a video showing fun facts about it and its stats.
● Led the team in figuring out logic for Javascript functions, refactoring redundant code, implementing an API, and styling using Bootstrap and CSS.

---

## Education

**Rutgers University** - *Fullstack Coding Bootcamp*                                                      May 2022
● Focused on the MERN stack (MongoDB, Express.js, React.js, Node.js)
● Learned by creating applications that solved real world problems.

---

## Experience

**Samsung Express Inc.**                                                      June 2020 - May 2022
*Executive Assistant*                                                      Palisades Park, NJ
● Assisted in overseeing operations, quality assurance of products, translated and liaised with other companies to solve any sudden issues that would arise.
● Wrote checks, invoices, and emails. Restocked any office supplies and handled any technical issues.
